B-Vent Gas Fireplace Series

**heatilator**<sup>®</sup>  
*The first name in fireplaces*

# Reveal,

## The secret has been revealed:

Enjoy the beauty of an open fire with the convenience of gas

- Open-hearth design eliminates the glass to recreate the experience of a woodburning fireplace
- Radiant, clean-face design enables the black metal front to be hidden behind a choice of non-combustible finishing materials for an authentic, traditional look
- Multi-colored stone refractory comes standard in a choice of traditional brick or herringbone patterns
- Three-tiered burner provides full, generous flames using 40,000 Btus per hour for 36" models and 43,000 Btus per hour for 42" models
- Six-log set is realistically detailed and easily assembled
- Limited Lifetime Warranty

Reveal shown with Bridgeport mantel, marron brown marble and bi-fold doors

## IntelliFire™

- With IntelliFire, there's no need for a constantly-burning pilot, saving the homeowner an average of \$10-12 per month
- When the fireplace is turned on, the pilot lights first then ignites the main burner; when the fireplace is not operating, the pilot also shuts down
- The IntelliFire system may be wired for 120V or operate with two D size batteries (not included) for operation during a power outage

Reveal shown with Hartford cast mantel, cast insert panels, cast hearth and bi-fold doors

# Reveal Technical Specifications

Model	A	B	C
RBV4236	41"	36"	23-3/4"
RBV4842	47"	42"	29-3/4"
